Did you know...?

Stockport has a range of online courses that are free for Stockport residents.

These courses are for anyone playing an active role in a child's life, from antenatal to 19 years – this could be mothers, fathers, partners, carers, professionals of all kinds, grandparents, other family and involved friends.

Created by experts, the courses are proven to improve emotional wellbeing and the relationships between parents and children.

Anyone in Stockport can join the **courses for free**

1. Visit **<https://inourplace.co.uk>**
2. Use the access code: **REDROCK**
3. You will be asked to create an account so that you can resume the course where you last left off
4. You will also be asked to verify your postcode to make sure that you're a Stockport resident

Empowering Parents Empowering Communities

Parenting courses delivered by Parent Group Leader Volunteers living in your own community. Each course offers practical tips to support you and your children

TOP TIPS
SESSIONS

Age 0-1 (baby)

Put me on my tummy

I need tummy time to strengthen my muscles that I'll need to crawl. I might not like being on my tummy and I might cry but try it for short amounts of time. Or try lying me on your tummy whilst you're lying down.

Remember, back for bed, tummy for play.

Make bath time fun

Water's really important to me, I spent 9 months in it! Keep smiling and looking at me when I'm in the bath and try to make it as fun as possible, with splashes and playful noises.

Take me out of my pram, high chair and car seat for tickles and touches

Take me out of my cot, rocker or car seat for a cuddle. I love to kick my feet and wiggle about. Tickles are the best thing ever! You could even try to give me a baby massage.

Age 1-3 (Toddler)

Give me time to play

Show me how to play. Support me in my play. Get down on my level, this helps me to engage with you. Involve my senses in play; smell, touch, taste, sight, listening.

Help me make my arms strong, this will help me learn to write.

Throwing different objects helps me master hand eye coordination and make my arms strong. Try balls, scarves, rolled up socks, a tea towel, scrunched up paper – anything safe and soft! Be creative, get me used to the object doing different things and moving in different ways, using different types of throwing like overarm and underarm.

Help me to do things by myself

This could include helping with household tasks like tidying my room. How about making fun activities out of doing the washing or putting the pots away so it fits into your daily routine – if you show me what to do I will love to try and help.

Age 3-5 (Pre-School)

Kick, Strike and Hit

Now I am a bit older I like to kick, hit and strike things to make them move. Give me different objects to kick with my feet and strike with my hands. Rolled up socks, balloons and scrunched up tea towels. A simple keep it up game using all my different body parts will help me develop my coordination.

Both sides of my body

Help me use both sides of my body at the same time, this will help with my reading and writing. An easy way to get me to do this is with head, shoulders, knees and toes, or Simon Says and get me to copy your movements. Play a game to get me to pass objects from one side of my body to another; I can do this sitting down or standing up.

Let me take risks

I'm getting braver when I'm moving, I may want to climb higher or run faster, this is okay as long as you keep an eye on me. Sometimes I'll fall over or get it wrong but that's okay, it's how I'll learn. Being outside will help me be more active and learn about the natural environment. Let me walk, run and move on different textures and surfaces like grass and concrete. Any safe open space close by or a garden will do, we can have races, chase and pop bubbles, jump or step over the cracks in the pavements. If you ask me 'which way' I'll lead us on our adventure.
